ADDITIONAL INFORMATION

HAIRDRESSING COMPLIANCE

Establishing a Hairdressing Salon business in the City can require compliance with several City Departments. In the first instance, you should contact the City of Greater Geraldton, as your application will involve;

ENVIRONMENTAL HEALTH *Liaise with Environmental Health Officer*

The premise must comply with the *Hairdressing Establishment Regulations 1972* and these can be view at:

[WALW - Hairdressing Establishment Regulations 1972 - Home Page \(legislation.wa.gov.au\)](http://www2.health.wa.gov.au/Health-for/Industry-trade-and-business/Personal-appearance)

TOWN PLANNING *Liaise with Town Planner*

Please make preliminary contact with a Town Planner to ascertain whether you need to apply for any specific Town Planning approvals or meet any other requirements in relation to your application.

BUILDING COMPLIANCE *Liaise with Building Surveyor*

Building Code of Australia – please make preliminary contact with a City Building Surveyor to ascertain whether the level of shop fit-out/alteration you are intending, requires a building permit and submission of plans.

PLEASE NOTE

The above is a City process only and you need to meet all the other necessary enquires with any external agencies that may be pertinent to your hairdressing salon proposal.

HELPFUL INFORMATION

See <http://ww2.health.wa.gov.au/Health-for/Industry-trade-and-business/Personal-appearance>

The business of hairdressing is a trade that is regulated under the *Health Act* in Western Australia. The specific regulations that cover this trade are known as the *Hairdressing Establishment Regulations 1972*. Any regulations made in this information sheet refers to these regulations and can be view by contacting the City.

ESTABLISHING A SALON

1. Hairdressing Salon structural requirement overview
 - a. All **shelves, benches and tables** on which you place instruments, tools and utensils are to be constructed of or finished with a durable, smooth, impervious material.
 - b. **Cupboards, cabinets and shelves** for the storage of clean towels, neck cloths, neck protectors, throwovers and similar articles, are to be made of durable smooth materials.
 - c. The salon will need **suitable receptacles**, constructed of smooth, impervious material with tight fitting lids for;
 - i. Linen, towels and other cloths that have been soiled; and
 - ii. Hair, paper and other trade waste and require labelling “soiled linen” or “waste” as the case may be.
 - d. The salon requires a **washbasin** for every three-work stations. Each basin to have a hot and cold water supply with sufficient flow. Hot water should achieve a minimum temperature of 38°C. **Taps** where the water is delivered direct from the tap to a person’s head, a grohe or similar approved mixing valve is to be incorporated in the line.
 - e. If **refreshments** are offered to clients, these are to be prepared in a room completely separate from client hairdressing activities. Food (refreshments) must be kept separate from hairdressing products/chemicals.
 - f. The floor of a salon shall be finished with a smooth, impervious, washable surface in the working area.

2. Salon Management Health and Hygiene Responsibilities
 - Instruments and a System of Disinfection
 - a. The salon needs **instruments** simultaneously available for attending to clients and sufficient in reserve, undergoing **disinfection**. Regulations specify as a minimum standard that;
 - i. Instruments (other than clippers) should be pre-cleaned by thorough washing in water with soap and detergent and they submerge in a disinfecting solution for 10 minutes. In the case of razors, 30 minutes.
 - ii. Clippers shall be disinfected by applying a disinfecting solution to the clipper head with a disinfecting brush.
 - iii. If you intend to use a disinfecting system in advance of the minimum requirements this needs to be discussed and approved by your local Environmental Health Officer.
 - b. A 1-litre vessel, containing disinfecting solution is required at each workstation.
 - c. Approved disinfecting solution
Most salons use a proprietary brand of disinfecting solution. If you so, please take time to read the label to make use the active disinfecting agent complies with one of the below or if not, is a disinfecting solution that has been approved by the Director of Public Health:

- i. Ethyl alcohol 70% (v/v) minimum with or without any other disinfectant or antiseptic;
- ii. Glutaraldehyde solution of 1% (v/v);
- iii. Hypochlorite solution of 0.5% (v/v) that has been made freshly made up on the day of its use; or
- iv. Isopropyl Alcohol 70% (v/v).

It is important to read labels and follow dilution instructions and that when diluted as recommended, the diluted solution can achieve the above.

If unclear or the disinfectant in use does not appear to contain one of the above, contact your local Environmental Health Officer to ensure the solution is approved.

Other Health and Hygiene

- A sufficient daily support of clean laundered towels, neck cloths, neck protectors, throwovers and similar articles, are to be available on the premises.
- Soap, nailbrushes and towels provided for staff hand washing.
- Keep a styptic and other first aid material as may be required within the salon.
- Ensuring hairdresser undertake and observe their responsibilities.

An Environmental Health Officer will call on you routinely to ensure the regulations are being met in the interest of health and safety, and arrange a routine inspection. Further health information is available from your Environmental Health Officer or browse the following website:
