We need to consider fresh ideas that are integral to local Government. I have lived in Geraldton for many years and my family originate from Farming and Fishing families in the Midwest. The last few years have been difficult for many. It will be my focus to rein in big spending on new, large Council infrastructure projects, and to refocus on maintenance of existing infrastructure. In doing so, I propose to freeze rates for 2024/25. Prioritise the Youth centre at Rocky's Gym, with more consultation. Restart verge side pickup with Council equipment and employees, and other labour solutions. Provide bins to ratepayers at no cost to initiate the recycling program. Propose to rezone residential areas to allow a backyard, quick erected dwelling, to alleviate housing shortages and give ratepayers a source of income. Oppose any wind turbine developments in our oceans. Reconsider the scooter hire program. Advocate for a State funded "Jetty for Geraldton". Please vote for change in Greater Geraldton.
