It has been an honour and privilege to have served on council to have a voice for the past 4 years and I would like to continue to do so.

As a rate payer, the money spent to enhance and forward thinking of this city will benefit our kids, grandkids and great grandkids for future generations. Throughout my life I have been heavily involved in many sporting clubs, a proud sponsor and involved in community organisations. As I have just semi-retired from my business, dealing with people on a daily basis and understanding the community problems that do occur – I have always been one to listen whether it's a big or small problem and to try to work out a solution. As a team player, forward thinker and open minded, I hope I can count on your support for another term on council.
