I am Geraldton born and raised, now living in Cape Burney, 43 years of age, with above average life experience coming from a trade and farming family in the region. I have been well travelled with exposure of what works in other cities as I have lived away for 20 years, with a background of children's services, horticulture, fishing, pearling, security, chef, bar work, hospitality, mining and air bnb. With great interest in the local community, I will advocate and represent the city in pure form. I will continue to keep the community informed of upcoming projects, decisions and oversee fairness and any input from members of the community. I measure a community on how the young, elderly and impaired are treated and propose to start a mayor youth program targeting the antisocial behaviors. I will read over the budget with the CEO and city accounts and express any input coming from the community and work through any changes and grants available to the city from government bodies.
