Being on Council is a privilege not many get to experience. I was lucky enough at the last election 2 years ago to gain a spot at the table to represent the people of Geraldton and surrounds. It has been a great experience and the ability to ask questions on behalf of the voters has been an interesting and enlightening process. Sometimes elected members need to stand up on matters that some do not. I have the fortitude to do that when differing views need to be presented to the debate. I voted against raising rates in 2023/24 and 2024/25. From small requests by ratepayers like a bus shelter or rebuilding disabled changing facilities, to larger issues as in the inequity of major playground design or future plans for Maitland Park. Issues like a Jetty for Geraldton or E-scooter safety and proposing to discontinue free alcohol in Council chambers, to larger issues such as industry rezoning in rural areas, and expenditure on major projects. If you reelect me I'll say what needs to be said.
